

Admin + Cashier

A practical guide to running the walk-in POS.

Sign-in, menu, stock, checkout, receipts, transactions, access, and daily checks.

ONE OPERATING RHYTHM

Admin keeps the catalog, stock, access, and records accurate.

Cashier keeps each walk-in order clear, paid, and traceable.

HM

01 / QUICK START

Sign in and choose the right workspace

HM POS has one staff portal with two roles. Your selected role must match your account.

Sign-in steps

1	Open /portal Open the HM POS staff portal.
2	Choose your role Select Admin / Manager or Cashier .
3	Enter your details Enter your work email and password. Use the eye button to show or hide the password.
4	Continue HM POS checks your role and opens the correct workspace.

Role guide

Admin / Manager	Cashier
Dashboard, menu, stock, transaction history, exports, users, settings, and voiding incorrect sales.	Menu, order tabs, item choices, checkout, PWD/Senior discount, payments, receipts, and cashier transaction history.

First-use check

The live app needs a connected Supabase project, active menu data, and an account with the correct role. If the cashier header says **Setup required** or **Offline**, contact Admin before taking live orders.

Basic cashier guide

Build one walk-in order at a time, verify the total, collect payment, and keep the receipt available.

Cashier flow

Menu -> Add items -> Review cart -> Checkout -> Confirm order -> Print receipt

Take an order

1	Find a menu item Use Search menu items or choose a category. Select an active, priced item.
2	Choose options If shown, select temperature, serving/variant, sugar, ice, and optional add-ons.
3	Review the cart Check item names, choices, quantities, and the running total. Use Edit or the quantity buttons when needed.
4	Use a new order tab Choose New Order for another customer. Keep separate customers in separate tabs. Up to six tabs can be open.

What the screen tells you

Live status Shows whether the menu and order data are connected or need attention.	Stock label Shows available quantity, low stock, out of stock, or Stock not linked.	Current order Shows the active order tab, cart items, total, and Checkout.
☐ Correct item	☐ Correct options	
☐ Correct quantity	☐ Correct order tab	
☐ Customer agrees with total	☐ Payment details ready	

03 / CASHIER

Checkout, payment, and receipt

Checkout confirms the sale. Complete every required field before choosing Confirm order.

Checkout steps

1	Choose Checkout Open checkout from the current order.
2	Apply a discount if needed Turn on Apply PWD / Senior Discount, choose PWD or Senior, enter the customer name and ID number, and select at least one item.
3	Choose payment Select Cash, GCash, or Bank Transfer.
4	Complete the payment Cash must be at least the total. GCash needs a 13-digit reference. Bank Transfer needs a bank name and a 6 to 30 character reference.
5	Confirm and print Choose Confirm order. When the receipt preview appears, check it and choose Print. Close the preview to return to the POS.

Before you confirm

☐ Items and options are correct	☐ PWD/Senior evidence is recorded when used
☐ Cash received is enough	☐ GCash reference has 13 digits
☐ Bank name and reference are correct	☐ Final total is understood

Receipt reminder

A successful order opens Receipt Preview and clears the paid cart. If you need the receipt again, open Transactions, find the sale, and choose Receipt.

If an order does not save

Read the error, check Transaction History before trying again, and tell Admin the order time, payment method, and error message if the result is unclear.

Basic admin guide

Admin keeps the catalog, stock, sales records, and user access accurate.

Main admin areas

Area	Basic task
Dashboard	Review net sales, orders, average order, recent transactions, top items, and low-stock alerts.
Manage Menu	Add or edit items, prices, categories, images, availability, and item choices.
Stock Management	Add stock records, set low-stock indicators, and adjust quantities.
Transaction History	Search, filter, print, export, and void incorrect walk-in sales.
Users & Access	Invite users, assign roles, edit accounts, and remove portal access.
Settings	Check the HM POS workspace identity and update the Admin username.

Menu and stock basics

Manage Menu

Stock Management

[] Use Add Item for a new product.	[] Add a stock record for tracked items.
[] Set price as Menu price incl. VAT (PHP).	[] Set quantity and low-stock indicator.
[] Choose Drink or Food and a category.	[] Use a positive adjustment for restock.
[] Mark Available when ready to sell.	[] Use a negative adjustment for waste or correction.
[] Use Edit or Duplicate for existing items.	[] Always enter a short reason.

Changes affect the POS

After changing price, availability, options, or stock, refresh the cashier workspace and check the result before service continues.

Records, access, and quick fixes

Use the right record surface for the job, and keep the audit trail clear.

Transaction rules

Need	Use this action
Find a sale	Admin: Transaction History. Cashier: Transactions in the header.
Print again	Open the sale and choose Print receipt or Receipt.
Download records	Admin: Export CSV or Export XLSX after checking filters.
Correct a completed sale	Admin only: choose Void order, enter a reason, and confirm. The sale stays visible and stock is restored.

Access basics

- Use Users & Access -> Add User to invite a new Admin / Manager or Cashier.
- Use View to inspect role, username, last active time, and activity.
- Use Edit account to update a user's sign-in details or role.
- Removing a user removes portal access permanently; recorded activity is retained.
- Do not share passwords. Sign out when leaving a shared device.

Quick fixes

Problem	Try this first
No menu or Setup required	Choose Refresh. If it remains, contact Admin to verify Supabase and menu setup.
Item cannot be added	Ask Admin to check that it has a price and is Available.
Payment error	Check the Cash, GCash, or Bank Transfer rule on page 4.
Print does not open	Allow browser popups, then use Receipt from transaction history.
Need to void	Give Admin the order or receipt number and the reason. Cashiers cannot void.

Daily close

Review recent transactions, confirm receipts are available, record stock changes with reasons, and sign out of shared devices.

Routes: **/portal** sign-in | **/admin** Admin workspace | **/cashier** Cashier POS

This compact guide follows the current HM POS source UI reviewed on 7 September 2026.
